This will determine the rubbers within each fixture. You can add a new fixture format and see a list of the match formats being used.

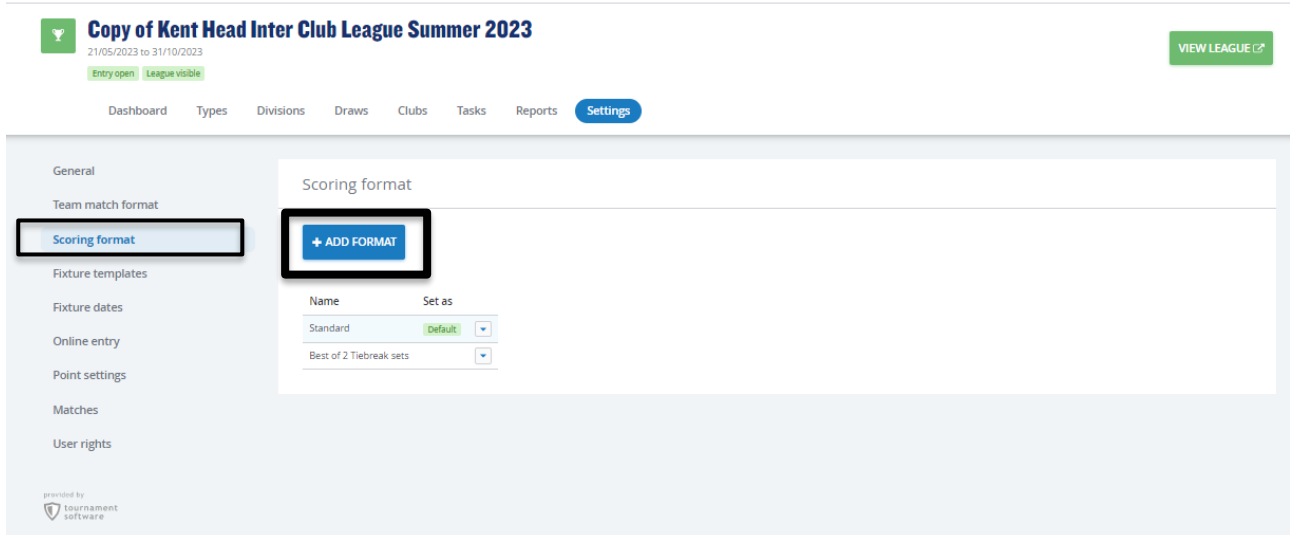

To add a new fixture format click **Add Format**. Enter the name of the format (e.g., Women's Doubles) and select the **match type** required for a fixture. Each rubber will need to be selected the number of times you require it from the drop down i.e., 4 x WD (Women's Doubles)

Match formats can be **edited** or **deleted** by selecting the drop-down button on the right-hand side of the list view. It is not possible to change this after the match program is generated.

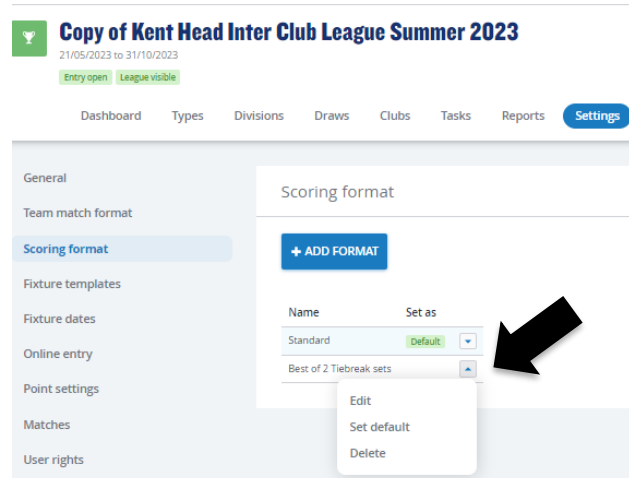

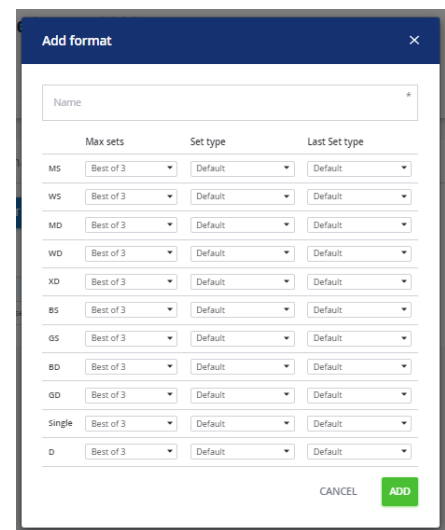

Scoring Format

The scoring format tab defines the scoring format which is used for each different rubber type in the fixture. You can add a scoring format and see a list of previous and current scoring formats used.

Select **Add Format**, to add a format name and select the max sets, set type, and last set type formats.

A set to 6 is default.

Scoring formats can be **edited**, **deleted**, or set as **default** by selecting the drop-down button on the right-hand side of the list view.

Fixture Templates

Fixture templates will not be used for the initial phase of the Online League Planner project and will be launched in phase 2 when the league will be set up from scratch in Online League Planner.

Fixture Dates

Fixture dates will not be used for the initial phase of the Online League Planner project and will be launched in phase 2 when the league will be set up from scratch in Online League Planner.

Online Entry

Point Settings

The point settings templates define how many points are received each rubber, the fixture and the standings of the league are determined. As league organiser you can **edit** or **add team** and **player match point template** and **standings calculations** using the right-hand side drop down.

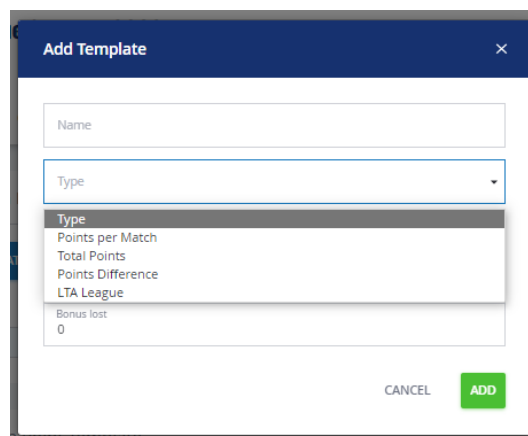

Templates can be created by selecting the **add** button. Depending on the selection in the dropdown, more settings appear. Unlike the old version of League Planner you can have different templates for different league type (events) of divisions. The system will look at the division first, then type and if nothing is defined there then it will take the default template to calculate the points.

The screenshot shows the 'Point Settings' page for a league. The page title is 'Copy of Kent Head Inter Club League Summer 2023' with a date range of '21/05/2023 to 31/10/2023'. A 'VIEW LEAGUE' button is in the top right. A navigation menu includes 'Dashboard', 'Types', 'Divisions', 'Draws', 'Clubs', 'Tasks', 'Reports', and 'Settings' (which is active). A left sidebar lists various settings, with 'Point settings' highlighted. The main content area is divided into three sections: 'Team Match Point Template', 'Player Match Point Template', and 'Standings calculation'. Each section has an '+ ADD TEMPLATE' button. The 'Team Match Point Template' section shows a table with columns 'Name' and 'Type'. The first row is 'Default' with 'Total Points' and a 'Default' status. An 'Edit' button is visible on the right side of this row, with a black arrow pointing to it. The 'Player Match Point Template' section shows a table with columns 'Name' and 'Type'. The first row is 'Default' with 'Points per Match' and a 'Default' status. The 'Standings calculation' section has '+ ADD STANDINGS CALCULATION' and 'CALCULATE STANDINGS' buttons, and a table with columns 'Name' and 'Type'. The first row is 'Default' with a 'Default' status.

 - *Points Difference*
 - *LTA League* – teams are issued two points for each fixture won.
- Bonus Points - You can add a bonus point(s) for a match if won, drawn or lost

STEP 5: FINALISE LEAGUE

DETERMINE FINAL POSITIONS

This process checks if all matches have a result.

The screenshot shows the 'Copy of Kent Head Inter Club League Summer 2023' interface. The 'Tasks' menu item is highlighted. In the left sidebar, 'Step 5: Finalize league' is selected, and 'Determine final positions' is the active task. The main content area displays a green checkmark icon and the text 'There are no errors found'. A 'GENERATE' button is visible at the bottom of the main area.

Once generated, every team in a draw will be given a final position and promotion status (promoted, relegated, or withdrawn). Based on this status the team rights will be determined when the league is copied for the next season.

CALCULATE EVENT AVERAGE RATING

This process will calculate based on the player's ratings, that played in an event and what the average team rating must be for the next season.

The screenshot shows the 'Copy of Kent Head Inter Club League Summer 2023' interface. The 'Tasks' menu item is highlighted. In the left sidebar, 'Step 5: Finalize league' is selected, and 'Calculate event average rating' is the active task. The main content area displays a green checkmark icon and the text 'Er zijn geen fouten gevonden'. A 'CALCULATE EVENT AVERAGE RATING' button is visible at the bottom of the main area.

Once calculated, the final step is to change the status of the league to **Finished** within the **General** section of the **Settings tab**. Select **Edit Properties**.
